

CRAFTING EXCELLENCE FOR OVER 35 YEARS

# ASPEKT

## 1800 SERIES

Introducing the ASPEKT 1800 window series, a groundbreaking answer to contemporary architectural needs. It seamlessly blends elegant aesthetics with unmatched functionality. Boasting pioneering design, the ASPEKT 1800 series excels in energy efficiency, noise reduction, and security, catering perfectly to both residential and commercial ventures. Crafted with premium-grade REHAU uPVC material, steel reinforced frame and precision engineering, this system stands resilient against the elements while elevating the allure and usability of any environment.

**FLEXSCREEN**  
(OPTIONAL UPGRADE)

- **Nearly Indestructible**
- **Full View**
- **No Hardware**
- **Effortless Installation**

## Engineered for Strength & Efficiency

The ASPEKT 1800 Series offers exceptional energy efficiency, noise reduction, and structural durability, making it ideal for residential and commercial projects.

- **Steel-reinforced REHAU uPVC for lasting strength**
- **Fusion-welded corners to prevent leaks and drafts**
- **Advanced insulation for year-round comfort**
- **Customizable configurations to suit any build**

### Designed for zero leakage

ASPEKT 1800s PVC component allows for fusion welded corners that will stand the test of time, keeping out water, draft, noise and other unwanted elements.

### Better thermal performance

ASPEKT is a natural insulator that creates highly energy-efficient windows and doors saving money on monthly energy bills, helping the environment, and supporting sustainable building techniques.

### Nearly indestructible Flexscreen

ASPEKT 1800 is designed with advanced insulation properties, enhancing energy efficiency.

# 1800

## ASPEKT SERIES

### 1800-ASPEKT FIXED SASH

The 1800 ASPEKT Fixed Sash window blends in harmony with the Casement and Awning windows, providing exquisite options of configurations that will allow for more natural light making a living space feel brighter.

### 1800-ASPEKT AWNING

The 1800 ASPEKT Awning window is hinged at the top and opens outwards with a smooth crank. Awning windows provide a clear view and direct rain away when opened.

### 1800-ASPEKT CASEMENT

The 1800 ASPEKT Casement is hinged on the side and opens outwards using a smooth operating Truth operator. Casement windows provide clear, unobstructed views, maximum ventilation, and are simple to clean.

#### ENCORE CONTEMPORARY HANDLE WITH MAXIM LP SASH LOCK

Streamlined modern design with minimal window treatment interference.

Shown L to R:  
Handle and Latch

Available in Black, White, and Brushed Nickel.

# 1400 SERIES

## A Balance of Value & Performance

The 1400 Series delivers cost-effective, high-quality vinyl windows with a modern, durable design.

- Multi-point locking system for enhanced security
- Optional brickmould and SDL grille designs for curb appeal
- Smooth operation with durable hardware

### 1400 – CASEMENT WITH OPTIONAL BRICKMOULD, SDL GRILLS AND PAINTED EXTERIOR

The 1400 PVC Casement is hinged on the right or left side and opens outwards providing smooth operation. Casement windows provide clear, unobstructed views, maximum ventilation, and are simple to clean. The exterior of the window has a beveled colonial detail.

### 1400 – PVC HIGH PROFILE FIXED

The 1400 PVC Fixed Sash window is a single extrusion made to look like an operating Casement or Awning. When combined with operating 1400 Series windows, the sight lines carry through for an elegant look.

# 1400 SERIES

**FULL SCREEN  
(STANDARD)**  
Spring Loaded

## 1400 – PVC SLIM PICTURE

The 1400 PVC Slim Picture window has a much lower sight line, and though it does not match the operating 1400 Series windows, you get more glass with less window frame. This is the perfect choice for small or large fixed windows.

## 1400 – AWNING

The 1400 PVC Awning window is top-hinged and opens outwards with a smooth crank mechanism, providing a clear view while directing rain away. The exterior matches the Casement window's charming detail.

## PREMIUM CONTEMPORARY HARDWARE

## SLIM PROFILE MULTI-POINT LOCK LEVEL

Available in: White, Black,  
and Brushed Nickel

*OPTIONAL BRICKMOULD, PAINTED EXTERIOR,  
AND SDL PRAIRIE GRILLS AVAILABLE ON ALL WINDOWS.*

# 700 SERIES

## Versatile Sliding Windows for Any Application

Designed for smooth operation and durability, the 700 Series includes both sliding and hung windows for residential and light commercial applications.

### DOUBLE SLIDER "TILT-IN"

Both operable sash slide horizontally and can be positioned for optimum ventilation. Both sash "tilt" inwards by releasing a locking latch for ease of cleaning the inside and outside glass surfaces. Once open both sash are held in place by a patented locking mechanism.

### SINGLE SLIDER "TILT-IN"

One side of a Single "tilt" Slider is fixed while the other sash "tilts" inward for cleaning, like a Double "tilt" Slider.

### DOUBLE SLIDER "LIFT OUT"

A Double "Lift Out Slider" has two operable sliding sashes. The sash can be easily removed by lifting them upwards and swinging out the bottom of the sash. Both sash glide on Brass Ball Bearing rollers which provide a smooth, noise-free operation.

# 700 SERIES

## DOUBLE HUNG "TILT"

Double Hung windows have 2 vertically sliding sash that "tilt" inwards for easy cleaning. Both sashes can be opened in any position and are held in place by a Constant Force Balance system that prevents them from sliding up or down in the unlocked position.

## SINGLE HUNG "TILT"

Single Hung windows have a stationary top sash and an operating bottom "tilt" sash. The bottom sash will remain in any open position without creeping up or down. The mechanism is the same as a Double Hung sash.

## CUSTOM SINGLE HUNG SHAPES

Single Hung windows can be manufactured with Round Tops, Cathedral Tops and Camber Tops while still maintaining the "Tilt In" feature of the bottom sash.

Internal grills or External SDL grills are available in many standard or custom designs.

# 4500 SERIES

## 4500 TILT & TURN DOORS

Built as a single door or combined with hinged doors or fixed units, this system offers unparalleled versatility, ventilation, and security. Multi-Point locking hardware and compression seals around the full perimeter make the 4500 Tilt-Turn ideal for extreme weather. Combined with Hinged Doors or Fixed Windows, possibilities like French Doors, Garden Doors, and Window Walls are endless.

### TOULON SERIES 4500 TILT-TURN WITH MULTI-POINT LOCKING HARDWARE

Brushed Nickel

White

Black

## 4500 HINGED DOOR SYSTEM

The Hinged Entry door is made to fit your entry and style with either full view glass, privacy acid etched glass or a custom design to suit your style. It is built to any dimension (up to 30 Sq. Ft.), complete with Lever Style hardware, full height Multi-Point locks and interior Euro hinges and colour matched caps.

### TILT & TURN HINGED DOOR HANDLES WITH MULTI-POINT LOCKING HARDWARE (STANDARD)

Shown in Brushed Nickel  
Also available in Black

# 4500 SERIES

In the "TURN" position, depending on overall frame size, the 4500 Series will meet **EGRESS** criteria.

## 4500 SERIES TILT & TURN, SWING AND FIXED WINDOW SYSTEM

EURO's **Tilt & Turn Windows** are the standard by which all other window systems are judged. Dramatic Window Walls, Passive Air Flow, or Wide Open for maximum ventilation are all possible with a single window system. With steel reinforced frames, the unique "tilt-turn" hardware allows each window unit to tilt inwards at the top for ideal indirect ventilation and security, or swing inwards for easy cleaning or emergency egress. Both actions are activated by one stylish handle that controls the internal hardware. The 4500 system is second to none in energy efficiency, sound insulation, and security.

## Euro's Wonderful World of Colour

When it comes to colour, the sky is the limit. Our newly installed paint line is "state-of-the-art". We use the latest in Water Based Paint Technology and spray equipment for a durable and fade resistant finish.

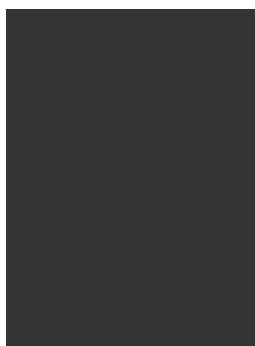

Euro offers 15 standard Gentek and 2 Buchner matched colours (Sandstone 320 and Dark Brown 480) carried in stock and offers other Gentek Collection colours as well. For custom colours, we can "colour match" efficiently. Windows can be painted on the exterior, interior, or both sides. Split colours are also available (different inside and out).

**WE PAINT BOXES** — Unlike most window companies that paint stock lengths of PVC extrusions before fabricating the windows, Euro completes all fabrication first, then paints the window frame and sash. This process ensures a seamless finished product with no unpainted sections or corners needing retouching.

# Beauty and Efficiency!

## ENERGY EFFICIENCY YOU CAN TRUST

All Euro Vinyl Windows products meet ENERGY STAR® standards, helping homeowners and builders reduce energy costs while maintaining comfort.

- Multi-chambered frames prevent heat loss
- Low-E glass & argon gas-filled units improve insulation
- Tight-sealing design reduces air leakage

## EURO VINYL IS YOUR GATEWAY TO ENERGY EFFICIENT WINDOW AND DOOR PRODUCTS

Through strategic partnerships with **Pro-Active Fenestration** and **Keystone Certifications**, Euro has raised the bar yet again, ensuring that our products meet the Energy Star Certification ratings.

In essence, Euro's partnership with Keystone and Pro-Active Fenestration, coupled with our choice of sustainable materials from Rehau recyclable extrusion and Nucoat environmentally friendly water base paint, underscores our unwavering dedication to quality, sustainability, and innovation.

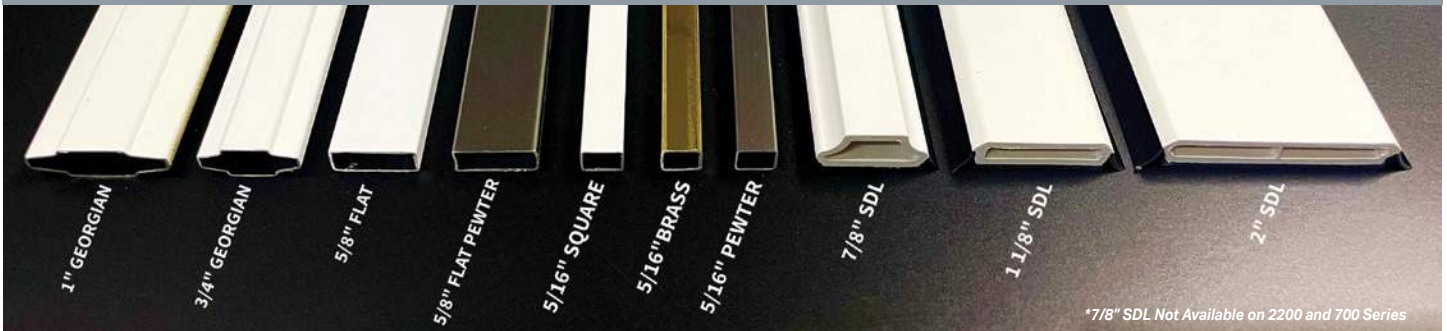

By meeting the Energy Star certification ratings and adhering to environmental practices, we have proved that sustainability and quality can go hand in hand.

# GRILL OPTIONS

## GRILL STYLES — DESIGNS AND COLOURS

MISSION STYLE

WHITE GRILLS CAN BE COLOUR MATCHED TO THE WINDOW FINISH  
AS AN OPTIONAL EXTRA

Internal grills are suspended between the panes of glass and held in place with concealed pins. Joints are machined and fabricated to prevent rattling and touching the glass.

SDL or "Simulated Divided Lite" Grills are designed to look like individual panes of glass. There is an internal grill that matches the external pattern. When completed, the finished window simulates the appearance of traditional glazed wooden windows.

## Precision-Engineered for Superior Performance

For over 35 years, **Euro Vinyl Windows and Doors** has been manufacturing high-quality, energy-efficient vinyl windows and sliding patio doors designed to perform in Canadian climates. Our products are built for strength, security, and durability, giving dealers confidence in every sale.

### Why Dealers & Homeowners Trust Euro Vinyl Windows and Doors

- Reliable lead times & consistent quality
- Durable, energy-efficient products designed for the Canadian climate
- Competitive pricing & strong manufacturer support

### Looking for high-performance vinyl windows and patio doors?

- Homeowners: Upgrade to durable, energy-efficient windows designed for lasting comfort.
- Dealers & Builders: Offer premium products your customers will trust.
